KANSAS LEGISLATIVE INSIGHTS NEWSLETTER | MARCH 18, 2022

March 18, 2022

WEEKLY RECAP

High-profile issues predominated this week. The Kansas Senate approved its budget bill and new redistricting maps were proposed in both chambers. There were proposals for constitutional amendments, medical marijuana use, restrictions on sanctuary cities, tax changes, and numerous other issues as many non-exempt committees finished their work for the session. Committees rushed to finish their consideration of non-exempt bills from the other chamber. There were a number of “gut-and-go” bills, so called because such bills combine similar bills together in a stripped single bill. This gut-and-go approach helps committees move forward multiple measures to finish work ahead of deadlines. The calendar for Friday, March 18, includes the Senate Federal and State Affairs Committee discussing medical marijuana and the Senate Judiciary Committee voting on legislation revising Kansas DUI laws. This morning, the Senate Transportation Committee discussed and voted on the latest autonomous vehicle bill.

REDISTRICTING UPDATE

Monday, the House Redistricting Committee introduced the Freestate 3, map proposed by the House Republican leadership. On Thursday evening, the House Redistricting Committee made map adjustments resulting from negotiations with House Democrats. The Committee reconvened Friday morning and introduced a new map called Freestate 3C.

Monday, the Senate leadership introduced a new redistricting map dubbed Freedom, which tweaks Liberty 2 filed last week. Freedom adjusts Senate map boundaries to jeopardize re-election bids of four incumbent Democrats: Sen. Tom Hawk, D-Manhattan; Sen. Mary Ware, D-Wichita; Sen. Tom Holland, D- Baldwin City; and Sen. Jeff Pittman, D-Leavenworth.

Tuesday, the Senate Redistricting Committee swiftly approved a new redistricting map named Liberty 3 with minor tweaks to Liberty 2. It adjusts several precincts, which may help several Senate Democrats and Republicans in

their re-election bids. While Senate Democrats are opposed to the map, they were appreciative of the changes in Liberty 3. Interestingly, the changes attracted five Democratic votes on the Senate floor. Five other newly proposed Senate maps were not considered.

Wednesday, the Senate debated Liberty 3, which is designed to maintain the current ratio of Senate Republicans and Democrats at 29-11. Several Democratic amendments were rejected. Senate Democrats objected to the hurried process without time for public input and lack of consideration of the other proposals. Thursday, Liberty 3 passed the Senate on final action 28-8.

UPDATE ON HOUSE AND SENATE BUDGET BILLS

Tuesday, the Kansas Senate debated for three hours on its budget bill (Sub. for SB 444). The Senate Ways and Means Committee put the final touches on the proposal last Thursday. Sub. for SB 444, as recommended by the Senate Committee on Ways and Means, contains FY 2022 supplemental funding, FY 2023 funding for most state agencies, and FY 2023 capital improvement expenditures for certain state agencies. The price tag is \$22.8 billion. The bill reduced Gov. Laura Kelly's proposed spending on education and eliminated tax-cut proposals. An amendment to increase special-education programs and services for K-12 failed 16-19. There were only two successful floor amendments. Sen Tom Holland, D-Baldwin City, added a federal E-Verify provision for state hiring and contracts of more than \$50,000. This requires the state and its contractors by July 1, 2023, to verify employees are legal citizens. Sen. Caryn Tyson, R-Parker, added a 15% pay increase for legislative employees (not legislators) who were left out of the last year's budget. During the veto session, this budget will be the foundation for assembling the Omnibus budget bill.

Tuesday, the House K-12 Budget Committee passed HB 2512 with the Kansas State Department of Education budget. It was amended to address numerous policy provisions in other bills. This was a major final piece to complete the House budget. Additionally, the Committee passed HB 2662, referred to as the Parents' Bill of Rights.

Like the Senate Ways and Means Committee, the House Appropriations Committee has spent many long hours assembling the House budget (HB 2588). On Thursday, House Appropriations met three times to finalize and approve the budget. The Committee passed and then inserted the contents of HB 2588 into a 2021 Senate Ways and Means Committee bill, creating House Sub for SB 267. Among the final changes was a budget proviso extending the Medicaid Managed Care Organizations (MCO) contracts for one year.

COMMITTEE ACTIONS

This week, the Senate Transportation Committee heard testimony on a new autonomous vehicle bill. SB 546 was presented as a compromise among the proponents for the autonomous bill. The Committee heard opposition testimony from members of law enforcement, who offered some language addressing public safety concerns. Friday morning, the committee debated and passed SB 546.

Thursday, the Senate Public Health and Welfare Committee approved Senate Sub. for HB 2280, allowing the prescribing of Food and Drug Administration (FDA)-approved drugs, including but not limited to hydroxychloroquine sulfate and ivermectin, for the off-label use of preventing or treating COVID-19 infections. The bill provides that recommendations, prescriptions, uses, or opinions of a prescriber related to treatment of COVID-19, including treatment that is not recommended or regulated by the State Board of Healing Arts (BOHA), the Kansas Department of Health and Environment (KDHE), or the FDA, would not be considered unprofessional conduct. The bill would apply these provisions retroactively to any disciplinary action taking place on or after March 12, 2020, and would require the BOHA to independently review all disciplinary action and rescind any such action prohibited by the bill. The bill would amend the Pharmacy Act of the State of Kansas to prohibit pharmacists from refusing to fill or refill any prescription based on such prescription being used to treat or prevent a COVID-19 infection. The bill

would also amend statutes relating to childcare facilities and schools to provide that children enrolling in a childcare facility, school, or preschool or day care facility operated by a school would be exempt from childhood immunizations required by the Secretary of Health and Environment if such immunizations would violate sincerely held religious beliefs. An amendment to remove the section on immunizations failed. The bill had passed the Senate Committee in February but was referred to back to Committee on Feb. 10 by the Senate leadership.

Thursday, the Senate Public Health and Welfare Committee passed HB 2386 concerning insurance relating to dental benefits, dental benefit plans, and related coverage. The Kansas Dental Association and several dentists provided proponent testimony stating the bill would address issues of transparency between dental providers and insurance companies. The representative from the Kansas Dental Association explained that a compromise was reached with Delta Dental of Kansas (Delta Dental) to not pursue the portion of the bill on prior authorization.

This week, the Senate Federal and State Affairs Committee spent two days of hearings on SB 560, which would enact the Medical Marijuana Regulation Act, regulating the cultivation, processing, distribution, sale, and use of medical marijuana. The bill was introduced last Friday. The Committee is meeting this morning to consider amending and passing the bill. The House has passed medical marijuana several times in recent years, however, the Senate has not passed the issue.

Thursday, the Senate Assessment and Taxation Committee met three times to consider numerous tax bills. The Committee was able to use the “gut-and-go” maneuver to combine tax bills to consider more than 20 measures. One of the approved bills creates a flat 4.7% income tax in Kansas starting in tax year 2024. SB 374, discontinuing the property tax exemption for certain renewable energy facilities, failed twice on voice votes. This week, the Senate Tax Committee also approved a constitutional amendment that requires a two-thirds majority vote of legislators to pass any bill adding a new state tax or increasing a current tax. Currently, tax increases only require a majority vote in each chamber.

NEXT WEEK

Next week, the House and Senate will be on the floor debating bills three days before the Wednesday, March 23 deadline to consider non-exempt bills not in their originating chamber. First adjournment of the Legislature is now two weeks away on Friday, April 1 (drop-dead day). The legislative debate calendars are full next week.

BILL INTRODUCTIONS

TAXATION

HB 2394 – As amended by the House Committee on Taxation, Rep. Adam Smith, Chair, would increase the Research and Development Activities Tax Credit from 6.5 percent to 10.0 percent and allow the credit to be claimed by all income taxpayers (current law limits the credit to corporate income taxpayers).
